

Earn Skills. Become a Maker.

DIY is a community for kids to discover Skills and learn all the ways to make our world. From Animator to Wind Engineer, Skills empower Makers to pick up new abilities and know-how. On our website and mobile app, Makers can browse through thousands of projects, share what they make and earn awesome patches for the Skills they try.

Go to www.diy.org and sign up with your kid.

DIY is safe! Parents get their own online dashboard to follow their kid's activity, and can make sure they're not sharing anything that should be private.
